

Here is your chance to work at Restore Hyper Wellness (<https://restore.com/>), one of the fastest-growing franchise companies in America.

We coined the phrase Hyper Wellness™ because it exemplifies our approach: offer cutting edge services that have shown results, strive to make our customers feel better every time they visit, and hyper stimulate the body's natural defense mechanisms. For us, Hyper Wellness is a lifestyle that we believe improves the lives of our customers.

Restore's unique retail locations are the antithesis of a traditional doctor's office. We are efficient, fun and social. We educate and provide information in a completely transparent manner so that you can manage your wellness better. Every day, we help thousands of customers achieve their goals around sports performance, pain management, recovery, beauty and overall wellness. We were awarded the Employee Health & Wellness Award by the Austin Chamber of Commerce for the 2019 Greater Austin Business Awards!

We've also made the Inc. 5000 list of fastest-growing companies in the United States! Coming in at #113 overall, #11 in Texas business and #1 in the Texas health industry. We've got a bright and busy future ahead of us!

Our nurses have labeled this opportunity as "the most fun you can have at a nursing job while still helping people in a meaningful way." You get to spend time in a positive environment with clients that are proactively addressing their health and wellness needs.

The Ideal Candidate would have the following characteristics:

- Outgoing personality and enjoys working with people.
- Comfortable with all IV related practices.
- Meets all state requirements and must be licensed and in good standing to practice medicine.
- Exceptional verbal and written communication skills.
- High ethics and integrity.
- Ability to work independently and with a smart team.
- Willingly adheres to all policies and procedures and maintains compliance at all times.

Responsibilities & Duties

Performs nursing assessment and evaluation under Restore Cryotherapy's medical and nursing protocols:

1. Administers two primary nursing services; intravenous therapy and intramuscular injections

using the prescribed formula and array of vitamins, minerals, and antioxidants.

2. Mild hyperbaric oxygen treatments.
3. Administers skin testing as well as transdermal immunotherapy, and micronutrient testing.
4. Uses electronic medical records to document client visits and therapies received.
5. Under the provider's and nursing director's supervision, address and answer client questions using the Nursing Reference Guide and communicate to the nursing team any issues or adverse events.
6. Exhibits use of therapeutic communication, exceptional customer service, professionalism, timeliness, efficiency and teamwork in all aspects of work.
7. Maintains a level of knowledge conducive to providing high-quality, competitive and kind nursing care.
8. Assists staff with other store services, sales, and cleaning duties.
9. Opportunity to participate in off-site nursing events and special projects. Participates in periodical and mandatory nursing evaluations.
10. Organization of product and equipment, as well as maintenance and equipment ordering.
11. Creates and provides scheduling for the part time and PRN nurses, every 4-6 weeks
12. Other related functions as assigned.

Skills & Qualifications

Licensed as a Registered Nurse (RN). Two years of experience as a nurse in an acute care setting (ER, ICU, Med-Surg, OR or similar). One year of experience administering injections.

Experience and a high comfort level with using a computer to document. Demonstrated ability to work with a diverse community and provide services from a non-judgemental perspective.

Compensation:

- Competitive salary
- Free and discounted company services
- Vacation time
- Opportunity for growth
