

Designation of Method by Which Board Will Give Public Notice of Its Meetings

DHHS Legal has advised that board should make a motion annually of the method it will use to inform the public of its meeting. Notices for Center for Nursing Board of Nursing meetings are currently made by:

1. Posting agenda at Nebraska State Office Building, and
2. Posting agenda on Department's website.
3. If any person(s) would request to be included on an interested parties list for the Center for Nursing, agendas for each meeting would be emailed to those person.

The Board can make a motion to continue using this method or a revised method.
